

Workshop on Coastal Observation and Modeling Systems
September 8, 2020

Carl Gouldman

Director, U.S. Integrated Ocean Observing System

Carl Gouldman has been Director of the U.S. Integrated Ocean Observing System (IOOS®) Office in NOAA, since February 2017. Prior to becoming the director, Carl served as the Deputy Director of the program since June 2014 and has been in NOAA since 2000. U.S. IOOS is a coordinated network of people and technology that work together to generate and disseminate continuous data on our coastal waters, Great Lakes, and oceans.

Before NOAA, Carl spent 3 years in the education department at the Chesapeake Bay Foundation where he led field programs teaching students about bay ecology and conservation. He holds a B.S. in political science from Duke University and a Masters (MEM) in Coastal Environmental Management from the Nicholas School of the Environment and Earth Sciences at Duke.
