

**Workshop on Coastal Observation and Modeling Systems**  
September 8, 2020

**Samuel Brody**

Samuel D. Brody is a Regents Professor and holder of the George P. Mitchell '40 Chair in Sustainable Coasts in the Department of Marine and Coastal Environmental Science at Texas A&M University, Galveston Campus. He is the Director of Center for Texas Beaches and Shores and the newly formed Institute for a Disaster Resilient Texas. Dr. Brody is an adjunct professor in the Department of Civil and Environmental Engineering at Rice University. He was also the Lead Technical Expert for the Governor's Commission to Rebuild Texas in response to Hurricane Harvey.

Dr. Brody's research focuses on coastal environmental planning, spatial analysis, flood mitigation, climate change policy, and natural hazards mitigation. He has published numerous scientific articles on flood risk and mitigation, and the book, *Rising Waters: The causes and consequences of flooding in the United States* published by Cambridge University Press.

Dr. Brody teaches graduate courses in environmental planning, flood mitigation, and coastal resiliency. He has also worked in both the public and private sectors to help local communities adopt flood mitigation plans.
