

Mijail Arias-Hidalgo

Short Bio

Mijail Arias-Hidalgo graduated as a Civil Engineering at ESPOL, Guayaquil, Ecuador. Later on, he pursued a M.Sc. degree in Hydroinformatics at UNESCO-IHE, Institute for Water Education, Delft, The Netherlands, and a Ph.D. degree in Water Science and Engineering at Delft University of Technology, Delft, The Netherlands. He has worked as a consultant for ESPOL-TECH EP and private companies in various projects involving surface hydrology, hydrodynamics, morphodynamics, and water quality modelling. Currently, he is an Associate Professor on Water Science and Engineering for the Civil Engineering Program at ESPOL. He has participated in several related publications for peer-reviewed journals and prestigious international conferences on water science and engineering.
