

Isabela Fernanda Camargo, Eng
University of Brasília (UnB)
Brazil

Forest Engineer and master's student in the Forest Sciences program at the University of Brasília (UnB). From 2021 to 2023, I interned in the General Coordination of Impact Assessment at Chico Mendes Institute for Biodiversity Conservation with information management. From 2022 onwards, I focused my studies on the area of River Basin Management focused on hydrosedimentological monitoring. In 2024, I joined the Young Ambassadors for Water training program, offered by the Águas Resilientes Institute.
