

**Mr. Italo Carli**

Head of ARTE Generali Italy

Italo Carli, Head of ARTE Generali Italy, holds a degree in Electronic Engineering from the Politecnico of Milan. He started his career in the world of information technology before moving to the insurance industry and specializing in the field of art. He has held various management positions in the insurance industry, in both organizational and technical-sales roles.

He holds conferences and courses in the most distinguished Italian universities on the world of fine art and risk management for cultural heritage. He has extensive knowledge in the field of art technology, combining insurance expertise with his training as an engineer.
