

Dr. William S. Logan

Director

International Center for Integrated Water Resources Management (ICIWaRM)
USA

Dr. William S. (Will) Logan has served as Director of the International Center for Integrated Water Resources Management (ICIWaRM), in Alexandria, VA, since 2018. He was ICIWaRM's Deputy Director from 2008-2018. ICIWaRM is under UNESCO's auspices and is hosted by the U.S. Army Corps of Engineers' Institute for Water Resources. The center does training and capacity-building globally, in collaboration with UNESCO's International Hydrological Programme (IHP) and other UNESCO-affiliated water centers.

In 2009, he was Science Attaché for the U.S. Mission to UNESCO in Paris, handling fresh water, oceans, climate change, and the basic sciences. From 1999-2008, he was Staff Officer and Senior Staff Officer at the Water Science and Technology Board of the National Research Council, directing studies related to large-scale watershed restoration, managed aquifer recharge, river science. Formerly, he was Assistant Professor of Hydrogeology at The George Washington University.

Dr. Logan received an M.A. in Geology from the University of Texas at Austin, and a Ph.D. in Earth Sciences from the University of Waterloo, Canada.

He serves on the Board of Directors of Aqua-LAC, the Journal of UNESCO IHP for Latin America and the Caribbean, and on the Governing Boards of the Centro del Agua para Zonas Áridas y Semiáridas de América Latina y el Caribe (CAZALAC) in La Serena, Chile, the International Centre for Water Resources and Global Change (ICWRGC), in Koblenz, Germany
